Hi Felix,

You are welcome to use any of my diagrams with attribution, such as the LSTM diagrams.

(Note that a few diagrams on my blog are not mine. You can recognize these because they have a citation directly below them. I can't give you permission to use those diagrams -- you'd need to ask the author of that article.)

Chris

Hello colah,

I am currently writing my master thesis and have found your excellent content, especially the images copied all over the internet. However, I was not able to find a LICENSE file or something similar. Would I be allowed to use your graphics in my thesis? I would of course list the source properly in the list of illustrations. If it is already available under a free license like cc-by or similar I apologise for causing extra work by writing to you, I was simply not able to find it.

Best regards,

Felix
